

Products & Capabilities

Making your life easier with EZ-fill Smart™

The enhanced ready-to-use vial platform
for your aseptic manufacturing

MANAGING COMPLEXITY, DELIVERING VALUE

EZ-fill Smart™: your gateway to the future of aseptic manufacturing

Leveraging our market-leading EZ-fill® technology, we delivered EZ-fill Smart™: an enhanced version of our pre-sterilized platform aiming to make RTU vials a standard.

Responding to market requirements, EZ-fill Smart™ brings the same top-notch features as EZ-fill® in terms of flexibility and streamlined pharma operations, **now with extra benefits:**

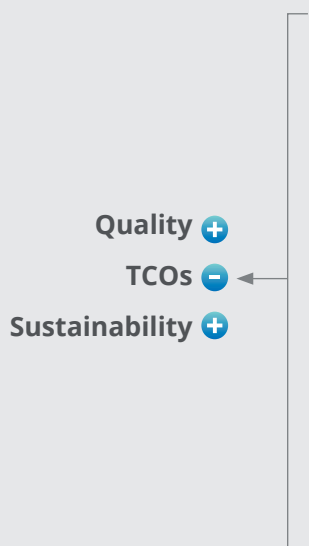

Our goal? Reducing complexity for pharma companies, CMOs, and CDMOs and helping them offer premium quality solutions to increase patient's safety.

- Increased quality
- Reduced TCOs
- Improved sustainability
- Mitigated supply chain risks

Enhancing quality at a whole new level

We listened to your needs and worked to deliver results, working with a holistic approach and introducing process and product optimization.

EZ-fillsmart™

No glass-to-glass and no glass-to-metal end-to-end

Ensuring maximum integrity of pre-sterilized containers throughout the manufacturing process

High automation

Increasing productivity and reducing human errors, while ensuring higher quality and process repeatability

Alternative sterilization method

Integrating a safe and more environmentally friendly method in the process

The smart choice when it comes to aseptic manufacturing flows

Looking at future plans will no longer be an issue. You can rely on a standardized production process and

secondary packaging, offering reliable sourcing and consistently available capacity.

Platform options

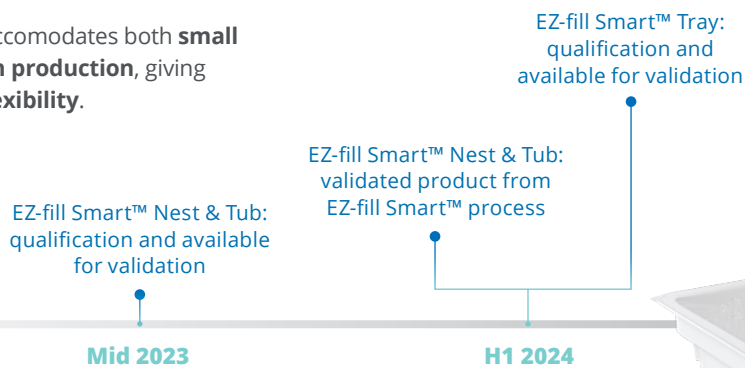

We will work with you every step of the way during production and offer different options to ensure a smooth

transition or early adoption. Process and packaging improvements will be available on top of the current options.

	EZ-fillsmart™ PROCESS	EZ-fillsmart™ PACKAGING ¹	EZ-fill™ PACKAGING	2 STERILIZATION METHODS
Option 1	✓	✓		✓
Option 2	✓		✓	✓

Platform availability

EZ-fill Smart™ accommodates both small and large batch production, giving the required flexibility.

> EZ-fill Smart™ comes as a highly standardized platform: it ensures seamless integration with standard fill & finish operations.

¹ EZ-fill Smart™ packaging is also compatible with the current EZ-fill® process.

New Nest & Tub

Redesigned secondary packaging

Yielding >90% reduction² of particle risks during operations and delivering improved quality

Optimized Design

Allowing full visibility of the vials due to the transparent seal

Use of biopolymers and recycled plastic

Combining sustainability approach with increased packaging efficiency

- + Quality
- TCOs
- + Sustainability

² Verified by internal testing and external certified laboratory
